As a next step, we are expecting you to complete a short assignment.

Please go through below assignment.

<https://docs.google.com/document/d/1puhdg0WKPjo-aUZv3xvVQ1pBOowpuL3V2z4Y6XH8NF4/edit?usp=sharing>

Please share output screen - voice to text recording for at least 5 mins needs to be sent to our email id - info@trrev.com

You can use AI to build assignment, but not copy paste whole code from AI, we need design the way it is shown in assignment. You should know whole architecture of development and you need to explain everything written as part of assignment during interview.

This is pre-assignment to check your technical knowledge. Please prove your knowledge with assignment.

Thanks,
Dilip
info@trrev.com

Assignment deadline: 12 September, 2026
